Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Information Disclosure Statement

1. The English explanations of the information disclosure statements have been considered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 10-12 and 14-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Abraham et al., US Patent Number 5,745,576.

With regard to claim 10, Abraham discloses a base station (controller) including a computer (column 12 lines 13-47) that transmits a prompt (column 9 lines 56-61, column 10 lines 56-59), and a remote control device (terminal, column 1 lines 13-15) which stores the prompt (column 9 lines 21-24, column 10 lines 60-62), and transmits a code word as a reply (column 9 lines 24-30, column 10 lines 63-64) that is partially a function of the prompt (column 9 lines 24-26, column 10 lines 64-65), the base station receives the reply and compares it with the required reply (column 10 lines 66-67), and grants access accordingly (column 11 lines 1-3).

With regard to claim 11, Abraham discloses the response is a function of the terminal's serial number (column 9 lines 24-28).

With regard to claim 12, Abraham discloses the challenge is stored in the base system (column 9 lines 56-59).

With regard to claim 14, Abraham discloses the reply includes a transaction count (column 9 lines 24-26), which is tracked (column 10 lines 22-24).

With regard to claim 15, Abraham discloses the count is changed (column 31-35).

With regard to claim 16, Abraham discloses the counter code has been previously transmitted to the base station (column 9 lines 42-46).

With regard to claim 17, Abraham discloses the counter code is encrypted (column 9 lines 24-26).

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 13 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Abraham et al.

With regard to claim 13, Abraham discloses the system of claim 12, as outlined above, but does not mention abandoning the process after a specific number of failed

attempts. The examiner takes official notice that it is well known in the art to check failed attempts to connect, and to abandon an access process after a predetermined number of failures. It would have been obvious for one of ordinary skill in the art to use this check in Abraham's system to avoid eternal loops, and to increase security against hacking.

With regard to claim 18, Abraham discloses the system of claim 10, as outlined above, but does not mention wireless communication or frequencies. The examiner takes official notice that it is well known in the art to have different wireless device working on different frequencies. It would have been obvious for one of ordinary skill in the art to use Abraham's system in a wireless environment with different frequencies to avoid interference and allow mobility.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2134

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacob Lipman whose telephone number is 571-272-3738. The examiner can normally be reached on 7:00 - 4:00 (M-Th).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory Morse can be reached on 571-272-3838. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
